## **Guido Bacigalupi nominated Area Manager for Central Southern Italy by it Consult**

***it Consult has extended Guido Bacigalupi's area of responsibility to all of central southern Italy***

Urbino, July 19, 2012 – it Consult, Italian leader in the SharePoint Microsoft based software programs for Organization Intelligence and areas like Knowledge, Business Process, Workflow and Document Management has entrusted Engineer Guido Bacigalupi with the responsibility for all of the sales activities for Central Southern Italy.

Eng. Bacigalupi who had already held the role of Area Manager for Lazio, has significantly developed the market in the area of reference through both direct channels and through the josh Certified Partners present in the area.

*"The extension his area of responsibility to Abruzzo, Campania and the entire South" - declared managing director Giovanni Marrè - "represents a new challenge for Bacigalupi who will be dealing with a market very different from that in the Rome area. However, we are sure that through the experience gained and the available contacts, he will succeed in winning the trust of many public institutions and private organizations. In fact, we believe that this area can provide considerable development in years to come and that this sales organization will allow us to better respond to the needs of the market".*

### **it Consult**
